SAFETY PASSPORT

INTRODUCTION

The IWK Safety Passport is compulsory and designed to enable IWK to improve health, safety and environmental awareness. The programme will also benefit our business practices together by creating a culture in reducing accident rates and incident related costs at the same time ensuring environmental requirements are met with vendors. The course provides basic knowledge of health and safety and complements on-site induction, enabling workers to work more safely and with lower risk to themselves, others and the surroundings. This training meets the statutory requirements of the Health and Safety in Workplace and in line with Environmental Awareness Consideration

TRAINING STRATEGY

Upon completing the course, participants will cover:

IWK Safety Passport requirements and matters related to the issuance and use of Safety Passport and are applicable to IWK Contractor and sub-contractor/vendor employees working at IWK premises.

TARGET AUDIENCE

Leaders, Heads, Managers, Supervisors, Senior Executives, Executives and anyone wishing to gain insights on how to promote work with IWK as safely as possible with lower risk to themselves and others including preservation of environmental requirements.

ACTIVITIES

Videos: Examples of Hazards and Practises

Case studies: Health and Safety Experience at IWK

Brainstorming: Solutions to a Sound work and environment experience

Role plays: Presentations
